- TM SecretDoors is a modern, dynamic, constantly growing brand that is part of ET Group.
- The main products of TM SecretDoors are "invisible" systems - swing and sliding doors of flush-mounted installation, wall panels, concealed skirting boards.
- «Doors in stock» is a line of finished products for further finishing. The surface of the door panels is treated with polyurethane primer at the production site, which acts as a protective layer.
- It is possible to use interior paints and wallpapers for further finishing the door.
- Installation of doors and application of decorative coating at the facility must be performed strictly in accordance with the attached "Instructions for installation and finishing of concealed doors TM SecretDoors".
